

Addendum 11.03.18

Handler Calls Allowed for Video Titling

Rule Change – Allow Handler to make the call for Video Titling

A helper or the handler is required to count for the dog's hold position behind the point ball at the start of the game. The count is, "3 and 2 and 1 and GO" or "1 and 2 and 3 and GO". The helper will also call, "Go When Ready" at the start of game when handler and dog are in the Ready Position in the Handler's Area. If a helper is not used, the handler will call "We Are Ready". The helper or handler will call "Time" once the dog is in the DOWN position within the handler area after bringing in all the balls. The helper's or handler's calls must be recorded during the actual run and be heard in the video; no dubbing voice overs.
